CDI-150

Siloxane free defoamer

For 100% UV-curing system

100% active matter

VOC free

Product Data:

Appearance: clear to light yellow liquid

Composition: high molecular weight block copolymer

Active matter: 100%

Storage and transportation: keep between 10 °C-35 °C

Shelf Live: 18 months

Special Features:

CDI-150 is a 100% active matter, VOC free, siloxane free defoamer for UV curing system. It is good for both clear coat and base coat.

Benefits:

- ▶ Siloxane free; good recoatability
- ▶ Suitable for clear and pigmented base coat
- ▶ Good compatibility provides nice transparency
- ▶ Outstanding defoaming and deaerating effect

Recommend Levels:

Whole formulation: 0.3-0.5 %

The above-mentioned levels are for recommendation only. Users should optimize the levels through their own testing.

Incorporation:

Suitable to add before grinding or at the let-down stage
