CDI-123

Defoamer

For general industry coating, powder coating

Zero VOC

Product Data:

Appearance: light yellow wax

Active matter: 100%

Storage and Transportation: between -10°C and 50 °C

Shelf life: 18 months

Special Features:

CDI-123 is a defoamer for general industry coating and powder coating. It has no VOC; 100% active matter; excellent wetting effect of the substrates; provide none yellowing, degassing effect and suitable for different powder coating formulation.

Benefits:

- ▶ Reduce static and dynamic surface tension
- ▶ Excellent substrate wetting
- ▶ Improve colour strength
- ▶ Strong defoaming effect
- ▶ No aromatic ring, less yellowing in powder coating

Recommend Levels:

Whole formulation: 0.15-0,3%

The above-mentioned levels are for recommendation only. Users should optimize the levels through their own testing.

Incorporation:

Dissolve product in resin and solvent well before adding pigments for grinding.
